

VR4KBLM

VR4K
SERIES

Vandal Resistant 4000 series blanking module

Vandal Resistant fascia

316 grade vertically brushed stainless steel front fascia.

Module protections

IK09 impact protection and IP55 ingress protection ratings.

4000 series modular design

Robust modular design compatible with all 4000 series surface and flush back boxes.

Vandal Resistant blanking module

The modular vandal resistant 4000 series blanking module can be used to occupy the space of a single VR4K series module within a 4000 series surface or flush back box, especially when the audio or video system is being left for future expansion.

It can also be used to complete the overall make up of an outdoor station when there is an even number of modules required.

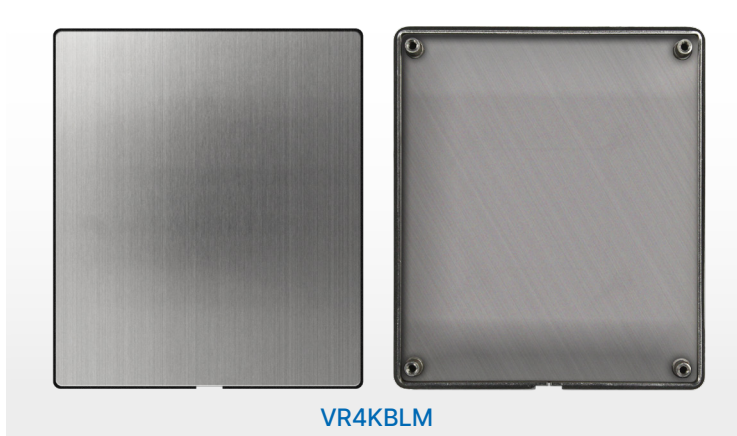

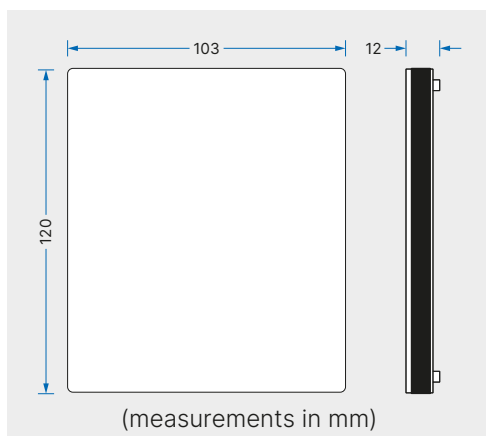

IK09

IP55

VIDEX[®]

THE POWER TO SECURE

Compatible with the full range of 4000 series surface and flush back boxes and front support frames

Technical characteristics

	VR4KBLM
Description	Vandal Resistant 4000 series blanking module that can be integrated with various VIDEX audio and audio/video systems.
