VR120 SERIES

VR120 Series Flush Back Boxes

20mm knockout at the centre of the bottom side

VRFB120x220
(for 120x220mm panels)

VRFB120x280
(for 120x280mm panels)

VRFB120x400
(for 120x400mm panels)

VRFB120x500
(for 120x500mm panels)

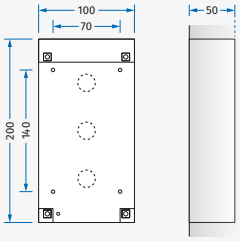

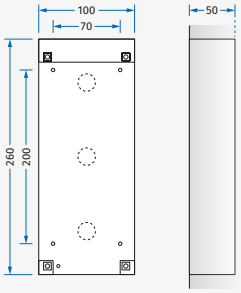

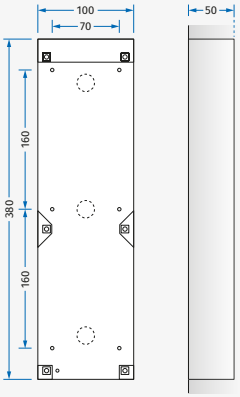

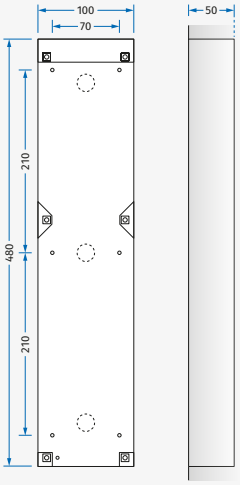

The **VR120** series galvanised stainless steel flush back boxes are suitable for the full range of standard size VR120 series panels.

Each flush box has 3x20mm knockouts to route cables through and are evenly spaced along the centre of the inner base of the flush box and another 20mm knockout centred on the bottom side.

They are also fitted with either four or six M5 cage nuts (depending on the box size) and include an M4x10mm earth stud to allow the **VR120** series panels earth strap to be connected.

Four or six 4mm fixing holes (depending on the box size) are located on the inner base of the flush box to allow for easy flush mounting into a wall cavity.

VR120 Series Flush Boxes
